The following arrangements involving universities operating through other organisations (principal and agent) have been recognised by the Minister for Education and Training in Western Australia.

Western Australia places no restrictions under the Higher Education Act 2004 in relation to recognised Australian universities operating in this State, as universities are self-accrediting institutions established under their enabling legislation.

However, where a university operates through another organisation but carries full responsibility for all aspects of delivery, this will be considered as a principal and agent relationship. Where such an arrangement exists in Western Australia, it is the responsibility of the agent to advise the Department of Education Services and provide it with certain evidentiary information. Approval of the Minister for Education and Training will then be sought to include the arrangement on the AQF register.
